

Cable Cutting and Stripping Machine (WPM-950)

Specifications

1. Model:WPM-950
2. generally 10 wires could be cutting stripping synchronously
3. accurate with servo motor controlling system

Features:

1. Model:WPM-950
2. generally 10 wires could be cut stripped synchronously
3. accurate with servo motor controlling system
4. Special design function,such as it can delay in starting machine automatically when bundling halts,delay in clamping wires, delay in despoiling and preventing wire-pulling dithering.
5. This machine has high efficiency like that of mechanic wire stripping machine, can be adjusted safely and conveniently, its performance exceeds traditional mechanic wire stripping machine completely

Specification:

Model:	WPM-950
Outer Size/Measurement:	D650× W1950× H1500mm
Net Weight:	400KG
Power Supply:	AC200V/380V 3phases
way to operation	single stroke and continuous action
Available Wire Size:	AWG#10-AWG#28
Display way	English LED touch screen display
Cutting Length:	42-99999mm
Cutting Accuracy:	1mm ± (cutting length× 0.002)
Stripping length:	3-30mm
Speed	3000 times/hour
Blade Material:	Hard tungsten steel
Appropriate Wire:	PVC, Teflon, Insulating Bush, Glass Wires, heat-shrink tubes, Electric wire etc
